Paper Trade Journal

Volume 143 – Year 1959

Index to Feature Articles

Short items and news stories not included

Alkaline Pulping (kraft & soda)

	Page	Date
Alkaline Pulping of Hardwoods—A Comparison of Kraft and Two-Stage Soda Pulps—H. Freedman	20	Mar. 30
How East Texas Gets Cleaner Digester Blow Condensate	44	Mar. 2
How Potlatch Pulps Sawdust and Waste Wood in a Continuous Digester	54	Dec. 14
New Pulp Mill of Buckeye at Foley Has Many Unusual Features	38	May 18
Our Experience in Continuous Kraft Pulping at Demopolis—J. M. Tucker, Jr.	50	Jun. 15
Primary Fiberizing of High Yield Pulp Highlight of Alkaline Pulping Conference—P. D. Van Derveer	54	Nov. 16
Pulp and Paper Industry Progress in Atmospheric Pollution Control—N. J. Lardieri	42	Jun. 8
Recovered Lime from Water Treatment Supplies Entire Requirements at Foley	47	May 18
The Outlook for Tall Oil Production and Consumption—J. M. Wafer	30	Nov. 30
Theory and Practice in Causticizing Green Liquor—O. Sylwan	42	Jan. 12
Unique Sulphite-Soda Pulping and Recovery System Used at Rauma—John C. W. Evans	50	Sept. 14

Bleaching

	Page	Date
Bleaching of Alkaline Hardwood Pulp at Cornwall, Ontario—J. M. Ferguson and E. A. Macdonald	42	Jan. 19
High Brightness Soda Pulp from Northern Hardwoods—H. Freedman	28	Aug. 31
How a Bleach Plant Model Reduced Engineering Costs for Buckeye	24	Nov. 30
Manufacture and Use of Chlorine Dioxide in Pulp Bleaching—F. M. Ernest	46	Aug. 24
Use of Control Valves at the Marathon Naheola Bleach Plant—R. L. Morrison	36	Oct. 19

Board

	Page	Date
Air Jet Coater on Riegel's Carolina Belle is One of the Largest Installed	54	Feb. 23
American Box Board Utilizes Air Knife in Coating Bleached Food Board—P. D. Van Derveer	34	Oct. 5
Cleaning Paper Machine Felts—R. H. Beaumont, Jr.		
Part I—Chemical Cleaning Agents	40	Mar. 16
Part II——Chemical Methods for Removing Specific Plugging Materials	40	Jun. 1
Part III—Practical Cleaning Techniques—R. H. Beaumont Jr. and J. L. Hanchette	32	Aug. 3
Cost Considerations in Production of Bleached Fourdrinier Board—E. N. Wennberg	48	Feb. 23
Designs and Dilemmas of Calender Box Equipment—P. Pringle	58	Apr. 20
How Infra-Red Heating is Used to Increase Production at A.P.M.—M. R. Pallavicini	36	Jun. 29
Inverform—First Real New Concept in Papermaking Since Development of the Original Fourdrinier and Cylinder Machine—John C. W. Evans	20	Jun. 22
Looking at Calender Box Treatment from the Converter's Viewpoint—E. E. Stephenson	33	Apr. 6
Mill Superintendents Discuss Felt Problems at Round-Table	30	Mar. 2
New Differential Type Drives for Paper Machines—O. R. Witwotrh	34	Feb. 23
Paper and Board Coating—On or Off-Machine?—J. E. Wilber	33	Mar. 30
Size Press Potentials Greatly Increased By Mechanical Improvements and New Chemicals—H. P. Dixon	24	Mar. 30
The Future of Paperboard Through Better Planning—R. C. Chandler	34	Jun. 8
Use of Size Press for Application of Conventional Paper Coatings—H. E. Nelson	34	Apr. 13

Coating

	Page	Date
American Box Board Utilizes Air Knife in Coating Bleached Food Board—P. D. Van Derveer	34	Oct. 5
Air Jet Coater on Riegel's Carolina Belle is One of the Largest Installed	54	Feb. 23
Allied Paper Corp. Installs Upside-Down Size Press at Monarch Mill	55	Dec. 7
Coating Conference Covers Broad Range of Topics—E. F. Barker	26	Jun. 8
New Coating Color Mixing Room at S. D. Warren	32	Oct. 12
New Specially Tailored Coating Latex—H. N. Lowell	32	May 25
Oxford's New Line of Coated Papers	14	Feb. 2
Paper and Board Coating—On- or Off-Machine?—J. E. Wilber	33	Mar. 30
Pinpointing the Source of Coating Variation—F. Streit	26	May 11
Use of Size Press for Application of Conventional Paper Coatings—H. E. Nelson	34	Apr. 13
Vacuum Metallizing Techniques for Coating of Paper—K. C. Taylor	34	Jul. 27
What are the Newest Trends in Coating?	26	Jun. 22

Vacuum Metallizing Techniques for Coating of Paper—K. C. Taylor	34	Jul. 27
What are the Newest Trends in Coating?	26	Jun. 22

Converting (except coating)

	Page	Date
Lithographic Progress and Paper Problems	34	Aug. 24
Modern Materials Handling Methods Boost Interest in Skid-Resistant Cartons—I. G. Hefter	60	Feb. 16
New HDLS Paste Process for Corrugators . . . Makes Better Adhesive, Faster—E. H. Hill	50	Sept. 7
New Method of Removing Paper Dust Produced in Converting Operations—R. E. Futer	42	Nov. 23
New Rotogravure Printing Installation at Sutherland	32	Feb. 23
Owens-Illinois Opens New Corrugating Box Plant	24	Oct. 26

Engineering

Application of Large AC Motors to Pulp and Paper Mill Drives—G. L. Oscarson	42	Jul. 13
Atomic Power for the Paper Industry—P. D. Van Derveer	22	Nov. 2
Check List for Selection of Hoppers	51	Dec. 7
Comparing the Largest Paper Machines of Britain, Canada, and the U. S.	40	Jan. 26
Flume Aprons Stand Up Under Battering of 1000 Cords of Wood Each Day	28	Nov. 9
How a Bleach Plant Model Reduced Engineering Costs for Buckeye	24	Nov. 30
How the Industrial Engineering Dept. at Downingtown Paper Co. is Organized—H. H. Treuting	24	Mar. 2
How to Use Standard Pulp Valves for Throttling Control—J. B. Madison	24	Jan. 26
New Construction-Management Plan Cuts Cost of Buckeye Mill 10 Per Cent	48	May 18
New Differential Type Drives for Paper Machines—O. R. Witworth	34	Feb. 23
New Future for Flat Belt Drives—O. R. Witworth and G. R. Bruck	24	Sept. 28
Progress Report on Uses of Plastic Belts—R. H. Rhoads	24	Jun. 1
Selection and Care of Stainless Steel—R. J. Berkol	42	Aug. 24
Some Intervening Years of a Still-Growing Giant—A. P. Schnyder	31	May 4
Use of Control Valves at the Marathon Naheola Bleach Plant—R. L. Morrison	36	Oct. 19

Finishing

Finch, Pruyn Continues to Modernize Its Finishings and Converting—H. L. Dyer	40	Apr. 27
German Design of Pulp Cutter is Widely Installed in European Mills	34	Nov. 23
Hamilton Finishing Lines Set New Standards for Efficiency—P. D. Van Derveer	40	Feb. 23
New Paper Machine Winder Cuts Finishing Room Operations	41	Oct. 5
New Sheeting Operation at Tyrone Incorporates Interesting Innovations	22	Feb. 9
Novel Slitting System Makes Its Bow at West Virginia Mill	26	Oct. 26
Sheet Finishing Improved at Mobile with Automatic Air Humidity Control—R. D. Quina	32	Mar. 23
Simple Charting Method Used to Study Finishing Operations—C. E. Patch	40	June 29
What are the Basic Faults in Our Finishing and Shipping Departments?—J. W. Robinson	34	Nov. 9

Forecasts and Future Markets

Analyzing Demand for Wood Pulp, by Grades in 1959—P. W. Hoguet	31	Mar. 16
Industry Executives Examine Expanding Horizons	29	May 25
Pulp and Paper Machinery Industry Outlook for 1959 and Review of 1958	30	Jan. 5
Reviewing Newsprint Supply & Demand	33	Nov. 23
Surveying the Demand for Kraft Paper—P. W. Hoguet	39	Mar. 23
World Future Pulp, Paper and Board Demand Supply and Trade	48	Nov. 16
World Pulp & Paper Capacity Expansion to Continue—D. DeGolia	41	Jan. 5

Instrumentation

Computer Applications in the Paper Industry—B. A. Goldberg	48	Apr. 6
Non-Destructive Measuring of Drying Profile in Machine Direction—A. L. Petitjean	32	Jul. 13
What of Computers and the Paper Industry?—A 1959 View—E. F. Thode	34	Mar. 2

Maintenance

Consideration in the Distribution of Lubricant to Dryer Bearings and Gears—G. F. Wright	46	Apr. 13
Establishing Basic Policy for Storeroom Control—B. Carson	34	Jul. 20
Gaining Longer Life from your Conveyor Belts—P. W. Freitag, Jr.	46	Dec. 14
How Refiner Plug Repair Reduces Costs at a Mill in Peru—J. Cullin	46	Jul. 20
How to Decide When to Rebuild and When to Replace an Industrial Truck—J. A. Draxler	35	Oct. 26
How to Kill a Fork Truck in 13 Easy Lessons	28	May 11
Installation and Maintenance of Jordans—W. B. Hayden	18	Dec. 28
Maintenance Cost Reduction—A Practical Approach—H. B. Harris, Jr.	46	Jan. 26
Ring Grinder Maintenance Influenced by Start-up and Operating Methods—H. L. Wendshuh	38	Dec. 21
Trouble-Free Concrete Floors: How to Get Them and Keep them—W. C. Perry	26	Jul. 13

Materials Handling (See wood handling)

Are You Doing a Patchwork Quilt Material Handling Job?—D. S. Adams	40	Jul. 20
Hamilton's Finishing Lines Set New Standards for Efficiency—P. D. Van Derveer	40	Feb. 23
How IP Mill Increased Chip Unloading by 30 Per Cent with Wheel Loader	53	Nov. 16
How to Decide When to Rebuild and When to Replace an Industrial Truck—J. A. Draxler	35	Oct. 26
Modern Material Handling Methods Boost Interest in Skid-Resistant Cartons—I. G. Hefter	60	Feb. 16
One Man Delivery System Utilizes Piggy-Back Fork Truck	31	Jul. 27
Shipload Handling of Paper Rolls Speeded by Lift Trucks	56	Dec. 14

	Page	Date
Unloading Hopper-Bottom Chip Cars—J. A. Holekamp	46	May 25

Mechanical Pulping

Continuous Cold Caustic Pulping of West Coast Hardwoods	20	Dec. 28
Europe's First Chemi-groundwood Plant Makes Pulp for French Newsprint Mill	52	Dec. 14
Newsprint Quality Groundwood from Southern Pines—F. W. Bishop	62	Jun. 15
Ring Grinder Maintenance Influenced by Start-up and Operating Methods—H. L. Wendshuh	38	Dec. 21
Swedish Groundwood Mill Uses New Wood Feeding System—B. Soderberg	44	May 4

Mill Descriptions

Allied Paper Corp. Installs Upside-Down Size Press at Monarch Mill	55	Dec. 7
Blandin Adds New Trailing Knife Coater and Chemi-Mechanical Pulp Mill	50	Apr. 13
Champion Unveils Biggest Fine Paper Machine —E. F. Barker	44	May 11
Diamond Gardner Reaches Toward Whole Log Utilization	42	Jan. 5
"Dixie Queen" Boosts Kraft Paper Production at Halifax—P. D. Van Derveer	22	Jul. 27
Eastex Cylinder Machine Allows More Flexible Operation	39	Apr. 13
Ecusta Aims "Arrow" at Lightweight Paper Market	54	Apr. 20
Europe's First Chemi-groundwood Plant Makes Pulp for French Newsprint Mill	52	Dec. 14
First Newsprint and Printing Paper Mill for East Pakistan	38	Aug. 10
Flexible No. 2 Begins Production at Gilbert Paper Co.	20	Aug. 31
French Mill Begins Production of Nitrating and Paper Grade Pulp—E. M. Whitcomb	24	Mar. 23
Further Travels of Your Roving Editor in Europe	61	Feb. 16
Hamersley Modernization of Number Three Machine	49	Sept. 7
International Developments and Foreign Trade —V. M. Elliott	44	Oct. 5
J-M Aims at Western Market with New Insulating Board Plant	32	Jul. 6
J. P. Lewis Improves Specialty Board Machine	21	Dec. 28
Kimberly-Clark Extends Paper Manufacture Into New England	34	Jan. 26
Minnesota and Ontario Adds Versatile New Paper Machine	40	Apr. 20
Modern Methods and New Mills Boost Formosan Paper Industry	40	Aug. 3
Modern Paper Mill Brings Newsprint Industry to Mexico	50	Jan. 19
New Bowaters Plant is First Market Pulp Mill in South Carolina	34	Oct. 12
New British Paper Mill Specially Built to Make Latex Treated Papers	24	Aug. 31
New Marathon Southern Mill Manufactures Wide Variety of Products—P. D. Van Derveer	34	Jan. 5
New Paper Machines Boost Production at German Mill	32	Jun. 1
New Paper Machine Increases Capacity and Flexibility at Simpson	38	Jun. 22
New Pulp Mill of Buckeye at Foley has Many Unusual Features	38	May 18
New Twin Wire Paper Machine at Scottish Mill	28	May 4
Newton Falls Paper, Installs New Fourdrinier in Record Time	27	Nov. 30
Norwegian Mill Marks 100th Year	52	Feb. 23
Northwest's New High Speed Machine Produces Pedigreed Fine Papers—H. L. Dyer	36	Aug. 17
Papierfabrik Biberist's Modern and Orderly Operation—E. M. Whitcomb	48	Feb. 16
St. F. Begins—Aims for Quality Coating	26	Jun. 29
Second Tissue Machine Begins Operation at Reed's Aylesford Mill	28	Dec. 21
Sorg Completes Rebuild of Number Four Machine	24	Jul. 6
Southern Chemical Cotton Moves Into Specialty Paper Field—P. D. Van Derveer	44	Dec. 7
Towgood Mill is Small But Modern—E. M. Whitcomb	33	Jan. 12
Townsend Hook Adds Machines for Magazine Papers	40	Nov. 23

Miscellaneous

Anecdotes from Dard Hunter—E. F. Barker	54	Apr. 6
Communist China's Paper Industry Growing Rapidly	48	Sept. 21
Establishing Basic Policy for Storeroom Control —B. Carson	34	Jul. 20
From Sky Blue Research to Red Ink—M. L. Downs	46	Aug. 10
Inflation is Not Inevitable!—R. Rodgers	43	Mar. 16
Nekoosa-Edwards Gives Salesman Solid Background in Papermaking	36	Jul. 13
Painless Cost Reduction—D. J. Dughie	38	Feb. 9
Paper Plays Part in Publicizing Pan-Am Jets	54	Feb. 16
Price Trends in Pulp and Paper Mill Equipment —C. C. Landegger	26	Mar. 16
Quality Control in Making Pulp—J. M. McEwen	40	Oct. 19
Role of Superintendent in Marketing our Products—H. E. Whitaker	42	Oct. 19
Solids Removal Practices in Southern Kraft and Newsprint Mills—H. F. Berger	42	Sept. 21
Swedish Mill Uses Wet Web Strength as Routine Control Method	50	Jan. 12
Teletypewriter Speeds Deliveries to Union Bag-Camp's Customers—L. Massey	42	Mar. 23
"To Reject or not to Reject"—F. Streit	42	May 4
What of Equipment Leasing in the Paper Industry?—R. Sheridan	27	Mar. 30
What Management Expects of Research and Members of its Research Staff—A. B. Layton	57	Mar. 9
What the Russian Pulp and Paper Industry is Doing—John C. W. Evans	24	Aug. 10

Papermaking

Aspects of Glass Fibers as Papermaking Material—T. S. Chambers	54	Mar. 9

	Page	Date
Cleaning Paper Machine Felts—R. H. Beaumont Jr.		
Part I—Chemical Cleaning Agents	40	Mar. 16
Part II—Chemical Methods for Removing Specific Plugging Materials	40	Jun. 1
Part III—Practical Cleaning Techniques—R. H. Beaumont, Jr. and J. L. Hanchette	32	Aug. 3
Comparing the Largest Paper Machines of Britain, Canada and the U. S.	40	Jan. 26
Current Developments in the Dewatering of Paper Mill Sludges—H. W. Gehm	26	Jun. 1
Designs and Dilemmas of Calender Box Equipment—P. Pringle	58	Apr. 20
Developments in Heating and Drying Subject of One Day Symposium—E. F. Barker	32	Sept. 28
Du Pont's Developments in Fiber Technology for the Paper Industry—W. E. Hansen	66	Jun. 15
Experimental Paper Machine at Western Michigan University—E. F. Barker	30	Mar. 30
First Details of West Virginia's Clupak Paper Operation Revealed—P. D. Van Derveer	30	Jun. 29
German Experiments Shed Light on Paper Machine Drainage Problems	32	Dec. 21
Hollingsworth and Vose Uses Acrylonitrile to Make Improved Paper	44	Oct. 19
How Infra-Red Heating is Used to Increase Production at A.P.M.—M. R. Pallavicini	36	Jun. 29
How to Simplify Paper Machine Standards for Better Cost Control—R. W. Houseworth	32	Aug. 10
Inverform—First Real New Concept in Papermaking Since Development of the Original Fourdrinier and Cylinder Machines—John C. W. Evans	20	Jun. 22
Looking at Calender Box Treatment from the Converter's Viewpoint—E. E. Stephenson	33	Apr. 6
Measuring Paper Machine Capability — F. Streit	32	Jul. 20
Mill Superintendents Discuss Felt Problems at Round-Table	30	Mar. 2
New Differential Type Drives for Paper Machines—O. R. Witworth	34	Feb. 23
New Paper Machine Winder Cuts Finishing Room Operations	41	Oct. 5
New Work on Tensions Developed in Removing Wet Paper Sheet from Rolls	23	Dec. 28
No Paper Like Handmade Paper	28	Jul. 27
Novel Slitting System Makes its Bow at West Virginia Mill	26	Oct. 26
Paper and Board Coating—On- or Off-machine —J. E. Wilber	33	Mar. 30
Pinpointing the Source of Coating Variation —F. Streit	26	May 11
Printing Paper Mill Supervisors Discuss Felts and Other Operating Problems	44	Aug. 17
Recent Developments in Papermaking—R. P. Whitney	34	Mar. 9
Size Press Potentials Greatly Increased by Mechanical Improvements and New Chemicals H. P. Dixon	24	Mar. 30
Size Presses and Calender Box Treatments Highlighted—E. F. Barker	32	Feb. 2
Use of Size Press for Application of Conventional Paper Coatings—H. E. Nelson	34	Apr. 13

Production Data

	Page	Date
European Paper and Board Use to Increase by 600,000 Tons per Year—E. Lagerloef	32	Mar. 9
More Than a Market—How the New European Economic Federation Can Affect U. S. Paper Exports—C. N. Auer	61	Mar. 9
Paper and Board Industry Booming Ahead	28	Aug. 3
Paper Industry is Moving into New High— M. C. Dobrow	40	Mar. 2
Paper Industry Leads Way Out of Recession—John C. W. Evans	24	Feb. 2
Production of Paper and Paperboard for First Six Months	46	Sept. 21
Reviewing the Industry's Progress—W. L. Neubrech	43	Oct. 5
Pulp, Paper and Board Industry Report		
Economic Review—W. L. Neubrech	56	Apr. 20
Paper and Board Trends—J. J. Bartosiewicz	56	Apr. 20
Raw Materials Trends—J. J. Mutzabaugh	57	Apr. 20
Foreign Trade Trends—D. DeGolia	57	Apr. 20
Unbleached Kraft Paper Review for 1958— S. D. Fleet	36	Mar. 9
World Future Pulp, Paper and Board Demand, Supply and Trade	48	Nov. 16

Pulp and Stock Cleaning

Efficient Waste Paper Cleaning System	30	Mar. 23
New Dry Process Intrigues Deinkers—E. F. Barker	28	Oct. 26
Pressurized Screening Proves Out in Many New Applications—D. F. Lehman	48	Apr. 27

Semi-Chemical Pulping

Consolidated Demonstrates Its Recovery of Spent Sulphite Liquors	50	May 18
Continuous Cold Caustic Processing of Hardwood Chips—S. Baer and J. W. Dunning	49	Sept. 21
Continuous Cold Caustic Pulping of West Coast Hardwoods	20	Dec. 28
First Large NSSC Recovery System Proves Out	22	May 25
New Continuous Cold Soda Pulping System Uses New Refiner	34	Jan. 19
Primary Fiberizing of High Yield Pulp Highlight of Alkaline Pulping Conference—P. D. Van Derveer	54	Nov. 16
Semi-Chemical Recovery Processes and Pollution Abatement—R. W. Brown, D. T. Jackson and J. C. Tongren	28	Jun. 22
Something New in Semi-Chemical Pulping of Hardwood—John C. W. Evans	36	Aug. 24

Stock Preparation

Experts Point to What's Ahead for the Deinking Field	30	Nov. 9
How S. D. Warren Gets Efficient Utilization of Soda Hardwood Pulp—R. W. Hisey	44	Feb. 16
Installation and Maintenance of Jordans—W. B. Hayden	18	Dec. 28
Machine Trials Prove Value of Polyacrylamide-Type Retention Aids—J. L. Date, J. M. Shute, and A. Shand	32	Nov. 9
New Dry Process Intrigues Deinkers—E. F. Barker	28	Oct. 26

Page Date

New Modified Cotton Linter Pulp Shows Interesting Properties ..... 26 Aug. 31
S. D. Warren Gains Major Benefit by Preparing Furnishes Separtely—R. W. Hisey ..... 46 Apr. 20

Sulphite Pulping

A New Sulphite Pulping Process and a New Pulp—John C. W. Evans ..... 42 Sept. 7
Consolidated Demonstrates Its Recovery of Spent Sulphite Liquors ..... 50 May 18
From Chips to Paper with Two Men—G. de Carufel ..... 34 Apr. 27
How French Firm Uses Ocean Water in Manufacture of Sulphite Pulp ..... 54 Sept. 14
Pulp and Paper Industry Progress in Atmospheric Pollution Control—N. J. Lardieri ... 42 Jun. 8
Unique Sulphite-Soda Pulping and Recovery System Used at Rauma—John C. W. Evans 50 Sept. 14

Waste Paper

Efficient Waste Paper Cleaning System ..... 30 Mar. 23
Experts Point to What's Ahead for the Deinking Field ..... 30 Nov. 9
New Dry Process Intrigues Deinkers—E. F. Barker ..... 28 Oct. 26

Water Utilization

Current Developments in the Dewatering of Paper Mill Sludges—H. W. Gehm ..... 26 Jun. 1
How French Firm Uses Ocean Water in Manufacture of Sulphite Pulp ..... 54 Sept. 14
How Hot Water is Produced Economically ... 56 Feb. 16
Recovered Lime from Water Treatment Supplies Entire Requirements at Foley ..... 47 May 18
Solids Removal Practices in Southern Kraft and Newsprint Mills—H. F. Berger ..... 42 Sept. 21

Page Date

Wood and Woodhandling

A Panorama of the Residue Chip Recovery Program in the South—T. N. Baker ..... 40 Apr. 13
A Cursory Glance at the Developments in Rail Transportation of Wood Chips ..... 39 Apr. 6
Cases in Point for the Morbark Portable Debarker—J. S. Hensel and J. A. Altman .... 56 Sept. 14
Chip Blanking Can Mean More Chips for Pulp Mills—G. Dickson and J. S. Hensel ..... 32 Nov. 2
Chip Compaction Developments in the Pacific Northwest—J. Gruenfeld ..... 40 Apr. 6
Feasibility of Using Lake States Hardwoods for Newsprint and Other Pulp and Paper Products ..... 48 May 25
Flume Apron Stands Up Under Battering of 1000 Cords of Wood Each Day ..... 28 Nov. 9
Further Progress on the Outside Storage of Southern Pine Chips—J. A. Holekamp ... 34 Nov. 30
How IP Mill Increased Chip Unloading by 30 Per Cent with Wheel Loader ..... 53 Nov. 16
How Simpson Paper Co. Standardizes Chip Specifications—J. C. Robinson ..... 42 Apr. 6
Mill Experience with Weight Scaling of Pulpwood in the Northeast—D. A. Swan ..... 48 Mar. 16
Pulpwood Price Trends in the Southeast ..... 22 Dec. 28
Self-Unloading Trailers Reclaim Pulpwood ... 54 Sept. 7
Solving the Problem of Arching in Chip Bins —A. D. Sinden ..... 25 Jun. 29
Swedish Groundwood Mill Uses New Wood Feeding System—B. Soderberg ..... 44 May 4
Swedish Wood Using Industries Success Depends on Intensive Forestry—John J. C. W. Evans ..... 22 Aug. 3
Truck Transportation of Wood Chips—H. E. Lovejoy ..... 36 Apr. 6
Unloading Hopper-Bottom Chip Cars—J. A. Holekamp ..... 46 May 25
Unusual Chip Handling and Storage System at Certain-Teed, Savannah ..... 36 Jul. 6
Weighing and Dumping of Chips at Cascade Kraft Mill—R. P. French ..... 41 Apr. 6
Wood Residue Chip Handling in the West—A review ..... 36 Apr. 6
